Early intervention, quality educational programs, a stimulating home environment, good health care, and positive support from family, friends, and the community enable people with DS to develop their full potential and lead fulfilling lives. In adulthood, many people with DS hold jobs, live independently, and enjoy community life, just like everyone else.

The Down Syndrome Association of Toronto is a Registered Charity that supports individuals with DS and their families through a variety of programs including new and expecting parents. Please visit our website or call for more information.

Memberships and donations may be made by mail or phone. Your support is greatly appreciated.
